Fredag 6 nov 18:30-20:00 Workshop 1 (Messehuset)

Tema: "The Walk and its Secrets"

There's nothing like a great Tango walk, but why is it so special? Though Hollywood, Broadway, and TV try to replicate it, no one can match the walk that can be seen by the dancers in local milongas of Buenos Aires. Together, we will investigate our individual ways of walking, and how to create an undeniable groove when we walk together with our partners.

Lørdag 7 nov 13:00-14:30 Workshop 2 (Messehuset)

Tema: "Sanguichitos and Medialunas: not just a snack!"

Two of the most useful and beautiful improvisational options for our Tango dance, the sandwich & medio giro are movements that give us ample opportunities for connection and musicality on the social floor. Enrich your comfort & creativity with us in these steps and find some exciting & unexpected ways to combine them!

Mandag 9 nov 19:00-20:30 Workshop 5 (Slottsfjellmuseet)

Separate klasser for førere og følgere

Balance and Coordination for Leaders with Alejandro Beron

In the tango dance we have to pay attention to many things at the same time. Some of those are muscular forces, posture, circulation on the dance floor, musicality and how you can create spaces in which to dance with your partner. In this class, you will receive exercises that will organize these topics in the dame and allow you to master them while you connect with your partner.
