Lørdag 7 nov 15:00-16:30 Workshop 3 (Messehuset)

Tema: "Milonga: Lisa vs Traspie"

Many dancers in the history of Tango were Team Milonga Lisa or Team Milonga Traspie. These days, we decide not to pick a side, and seek to bring the best of both styles into the musical expression of the Milonga that we dance. Learn how to dance and combine both styles in this fun workshop.

Lørdag 7 nov 17:00-18:30 Workshop 4 (Messehuset)

Tema: "Harmonizing Your Giros"

The giro (Spanish for turn) offers a space of unlimited potential for every tango dancer, we can use it to express our connection, illustrate our favorite moments in the music, and even get out of a tight spot on the dance floor. Like the walk, our journey into the giro never ends – we can always explore it and express it more deeply!

In Harmonizing Your Giros, Alejandro Beron and Kelly Lettieri will guide you with exercises and tips that will refine the giros you already do and provide you with structures that will give you greater creative freedom and connection when it is time to improvise. Those in the leader's role will increase their creative and improvisational capabilities inside of the giro, and those in the follower's role will increase their ability to take on a proactive role when a giro is proposed.

Mandag 9 nov 19:00-20:30 Workshop 5 (Slottsfjellmuseet)
